NUMBER 10

WOMAN IS BADLY INJURED IN AUTO CRASH NEAR ZION

Three Car Accidents Occur During Rain Tuesday; Antioch Man Hurt

Three auto crashes were reported in Lake county Tuesday as a sweeping rain limited visibility and made driving difficult. The occupant of one of the damaged cars, Mrs. Alice Beierle, 54, of Zion, suffered a possible skull fracture.

The car in which Mrs. Beierle was riding was involved in a collision with the auto of Orville Cunningham, 29, of Antioch. Cunningham, who was driving on Highway 173 near Zion accompanied by Ernest Polze, 22, of Bristol, Wis., suffered a number of fractured ribs and lacerations.

Taken to Hospital
Polze and Mrs. Mabel Downs, 49, of Zion, driver of the other car, also suffered bruises and lacerations. All were taken by ambulance to St. Therese hospital at Waukegan. Polze and Mrs. Downs were released after treatment, but Cunningham and Mrs. Beierle are still confined to the hospital.

The cars crashed when Mrs. Downs turned onto the highway from a side road. Cunningham's car was badly damaged.

In Trouble Again

The other two smash-ups occurred in Waukegan. Harry Klass of that city was cut over one eye when his truck collided with an auto driven by Howard Roth, also of Waukegan. The other crash involved cars driven by Olaf Edmund of Libertyville and Joseph Balmes of Wadsworth.

It was the second time in a few months that Edmunds has found himself in difficulty. Last summer he was arrested on a larceny charge on the complaint of his employer, Carl Carlson, Libertyville clothier. Carlson accused Edmund of taking stock from the store and trading the clothes to Joseph Stubbs of Antioch in exchange for drugs. Stubbs, who was a drug store employee, now resides at Libertyville.

KENOSHA MOOSE WILL BUY IRON LUNG WITH FESTIVAL PROCEEDS

The city of Kenosha and surrounding community is soon to have an "iron lung" available whenever needed, according to plans of the Kenosha Moose lodge, Terry McGurkin, lodge secretary, announced this week.

For the purpose of raising funds to purchase the mechanical lung the Moose will launch a four-night fall festival starting Wednesday, October 27 and closing Saturday night, with a big Hallowe'en party.

Quite recently, according to McGurkin, an iron lung would have saved a life in Kenosha community, and the Moose conceived the plan of holding the fall festival for the purpose of raising the required \$2,500 to buy one.

There will be dancing, games, floor shows, with many prizes to be given each night. The big show will be held in the Moose Club and the admission charge is 25 cents for all four nights.

Antioch Teacher Is Attending Vocational Conference at Rockford

Mrs. Ruby Richey, home economics teacher at the Antioch high school, left today for Rockford where she will attend the Illinois Vocational Home-making Teachers conference. Five members of the local Home Economics club will attend the club section of the conference on Saturday. Those who play to make the trip are: Grace McCormick, Frances Biener, Eleanor White, Lorraine Larsen, and Irene Krahm.

Weekly Boxing Program Planned at Ingleside

The second of a weekly series of boxing shows will be held at the Rude Dance hall at Ingleside Wednesday evening, according to Frank Meehan of that community who is sponsoring the programs.

Eight bouts will be included on the card, which will be under A. A. U. supervision. Mel Mullin will serve as referee, Jimmie Lennon as announcer and Peg Behning as promoter and matchmaker.

County Zoning Plan Dropped When Board Rejects Appropriation

Virtual abandonment of the zoning plan for Lake county was forced last week when the board of supervisors voted down an \$11,575 fund to carry on the work. The vote was 18 to 13 against the appropriation.

Purpose of the plan was to remove from the main thoroughfares the numerous auto graveyards and similarly unsightly enterprises which now dot the highways and residence districts.

In refusing to provide funds, members of the boards explained that the proposed amount was more than the county could afford for the year's program. Rather than do the job halfway it was decided that no appropriation whatever would be granted and that the work already started should be abandoned.

Mention was made that a revised appropriation may be presented at the next meeting in November.

CHIEF OF PROPOSED SANITORIUM NAMED

Dr. Charles K. Petter, physician and surgeon associated with the Glen Lake sanatorium at Oak Terrace, Minn., has been appointed director and supervisor of the proposed Lake county tuberculosis sanatorium.

The selection of Dr. Petter was made Thursday evening at a joint meeting of the special sanatorium projects executive committee and the county tuberculosis sanatorium committee. He will direct all activities in the treatment of tuberculosis in Lake county.

The new head of this department is a man of vast experience and knowledge in the treatment of this disease and his services, it is believed, will be invaluable to the two committees both in the drafting of the plans for proposed structure and in outlining of the course of treatment.

Head of Board

Dr. Petter will take charge of his office here on January 1, but he, nominally will be in charge of the activities of the sanatorium board from December 7, on when it must assume care and treatment of all tuberculosis cases in the county.

Possible location of the proposed hospital is still under discussion. There are two sites now being considered. One is located on Milwaukee avenue in the north end of Libertyville and the other on Grand avenue at the west limits of Waukegan.

Sites Considered

Only a site that is high in land levels and located close to water and sewer service are being considered. Proposals by land owners or real estate concerns are not accepted or considered as the board has full knowledge of the terrain of the county and knows what sites are best suited as possible locations for the institution.

Serving on the sanatorium committee with Dr. Theodore Proxmire as chairman, are James F. Stiles and Victor O. Woertz, and the Lake county board is represented by Supervisor Harold Pillifant, chairman, and W. W. Steel and Len Hook.

Nevitt Buys Huber Tavern

M. F. Nevitt of Antioch became the owner of Frank Huber's tavern at 932 Main st., in a deal completed yesterday. The transfer took place at noon when the purchaser took charge.

The tavern was started about three years ago by the late Claude Brogan who owned the building. After his demise the business was purchased by Huber.

Nevitt is the owner of the Nevitt Motor Freight Lines with headquarters in Antioch and in Chicago, at 3609 W. Harrison st. He has lived in Antioch for the past year.

Members of Antioch Future Farmer Group Attend Poultry Show

Several members of the Antioch Future Farmers of America attended the Midwest Poultry Exposition Monday evening at the Amphitheatre, Chicago.

Robert Bemis, Lloyd Drom, Norman Edwards, Robert Horton, Virgil Horton and Henry Quedenfeld accompanied their instructor, C. L. Kutil, to the international exhibit.

Dr. Bixler, a Lake County exhibitor who has shown at the Antioch Fair for the past eight years, exhibited White Leghorn and Buff Cochins at the Chicago exposition, winning a second place and a fourth on Leghorn cockerels, and two firsts on Buff Cochins.

A WLS barn dance program was an entertaining feature of the show.

STRATTON SEEKS NOMINATION AS COUNTY CLERK

Former Secretary of State Would Oppose Alford, Democrat

William J. Stratton of Ingleside, former Illinois secretary of state, last week announced his candidacy for the office of Lake county clerk in the approaching election.

Stratton served in the state office from 1928 to 1932, being defeated when the Horner regime was inaugurated in the latter year. He will seek the Republican nomination to run against Russel H. Alford, the only Democrat now holding a county office.

Two Waukegan men, Garfield Leaf and Jay C. Merchant, are looked upon by Republicans of the county as probable candidates for the party nomination for the office of treasurer. Leaf is now employed as a deputy in the treasurer's office, while Merchant is assessor for Waukegan township.

Allen J. Nelson, incumbent treasurer, will automatically vacate the office as the law prohibits a holder of that office from serving two consecutive terms.

Methodists Greet New Pastor Tonight

Members of the Antioch Methodist church will hold a reception and shower at the church tonight for their new pastor and wife, Rev. and Mrs. W. C. Henslee who arrived at the parsonage this morning.

Plans for the reception have been under the direction of Mrs. William Runyard, president of the Aid society, with Mrs. L. O. Bright as program chairman. W. C. Petty will give the address of welcome, and there will be games under the direction of Coach R. H. Childers of the Antioch high school. Community singing will be directed by S. E. Pollock with Hains von Holvede at the piano, and there will be the usual refreshments.

Rev. Henslee preached his first sermon here Sunday morning and then returned to Chicago to prepare to move his household effects to Antioch. Local parishioners appear to be well pleased with the conference choice.

Home-Built Airplane Passes Flight Test

Van Duzer, Former Antioch Resident, Worked on Craft 4 Years

Four years of experimental airplane construction by Frank Van Duzer, former Antioch resident, was brought to a successful conclusion recently when his home-built plane completed a 10-minute test flight over Kenosha airport.

Van Duzer constructed the plane with the aid of Harold Van Alstine. Both are employees of Johns-Manville in Waukegan. The machine is two-cockpit monoplane with a 32-foot wingspread.

At present Van Duzer is experimenting with an air-cooling system which he hopes to make use of in a plan he has conceived for installing automobile engines in airplanes.

He is the son of Mrs. W. J. Van Duzer of Antioch.

Antioch Lions To Hear Blind Speaker Monday

Franklin Dean, of the Hadley School for the Blind at Winnetka, will be the speaker at the Lions club dinner at Golden hotel here Monday evening at 7 o'clock. Dean, himself blind, and long prominent in educational methods for the sightless, is considered an authority on his subject and no doubt his remarks will prove interesting to his hearers.

Club members are privileged to bring guests to the dinner.

Sorenson Buys Service Station

Einar Sorenson of Channel Lake has purchased the stock of the Sinclair Service station located at the corner of Routes 54 and 173, taking charge of the business Monday, after signing the lease with the Sinclair Refining company. The real estate is owned by Robert Wilton.

Minos Nixon, the proprietor's son-in-law, will be in charge.

MICKIE SAYS—

IS TH' SMALL CITY ON TH' SKIDS? NOPE, NOT AS LONG AS WE BUY MOSTLY AT HOME-BUT IF A MERCHANT AINT WILLIN' TO ADVERTISE, 'N BACK UP HIS ADS WITH GOOD SERVICE AN' UP TO DATE STOCK, THEN HE CANT HOLLER 'BOUT FOLKS SHOPPIN' OUT OF TOWN!

Catholic Youth Group Plans Sunday Program

The Holy Name Society of Antioch will hold its fourth annual banquet this evening at St. Peter's hall. Speakers will be the Very Reverend R. Hilenbrand and Jas. O'Keefe, Leo Warren will be toastmaster.

Entertainment at the banquet will include piano selections by Stanley Szydłowski and Miss Grace Nelson, a violin number by Miss Joan Szydłowski and a vocal selection by Miss Ruth One Nelson.

Officers of the Holy Name Society are: Charles Cermak, Jr., president; Henry Harvey, vice president; Edwin Kapple, secretary; Gus Techert, treasurer; and Irving Walsh, marshal.

BARN DESTROYED IN \$30,000 FIRE; 27 ANIMALS DIE

Explosion in Grain Bin Seen as Cause of Blaze Near Antioch

Spontaneous combustion was believed the cause of a \$30,000 blaze which destroyed a large barn in southwest Antioch township last Saturday evening. Twenty-seven head of livestock were burned to death in the flames.

Antioch Fire Chief James Stearns stated that the explosion apparently occurred in the soy bean bins, spreading throughout the building almost at once. The fire was discovered about 8:45 p. m., while the tenant, Mrs. Jennie Schaefer, was away from the farm.

Short on Water

Owned by William Quinn, 920 Grand Ave., Waukegan, the farm is situated between Pikeville and Hickory. Members of the Antioch fire department, though handicapped by a limited water supply, succeeded in saving the house, chicken coops and other adjacent outbuildings.

Only 2,500 gallons of water were available to fight the blaze. The 1,000 gallon tank truck recently purchased by the First Fire District was rushed back to town and refilled during the course of the fire and then returned to the scene. Another 500 gallons was carried by one of the regular fire trucks.

Proved Truck's Value

The practicality of the tank truck's purchase was proved by the disaster Saturday as a similar shortage of water is usually encountered in the case of farm fires.

In estimating the loss, Mrs. Schaefer reported that 700 bushels of oats and 40 tons of hay were lost in addition to the live stock. The animals destroyed included 18 cows, a bull, four calves, two yearlings and two horses. She placed the loss of personal property at \$3,600.

Stearns Issues Warning

Reviewing the fire, Chief Stearns stated that farmers should take every precaution to prevent the occurrence of similar fires as stored grain, and particularly soy beans, offer a constant threat of spontaneous explosion.

State fire officials, too, only recently warned of the danger of fires where soy beans are stored, pointing out the highly combustible quality of that variety of grain.

11-MAN JURY FINDS SORENSEN GUILTY

Indicate Defendant Used "More Self-Defence" Than Necessary

A jury of 11 men returned a verdict late yesterday finding Justice of the Peace Ray Sorenson guilty of assault and battery. The case, attracting wide attention in the county court of Judge Perry L. Persons, is said to be the first assault and battery case to come before the county court in many years.

Charges were brought against Sorenson last August by Robert Schmitz after the pair had met in a store at Lake Marie. Sorenson testified that he merely pushed Schmitz when the latter attempted to strike him. Schmitz, on the other hand, claimed the young justice was the aggressor. Assistant state's attorneys, John R. Bills and Hartly LaChapelle, indicated to the jury that Sorenson used "more self defense" than necessary.

After two venires were used up, attorneys for both sides agreed to an 11-man jury.

Einar Sorenson, father of the defendant, and a prominent Democratic leader, charges "politics" had a part in the court proceedings.

Democrats Select Lyon as Nominee For Circuit Judge

By unanimous vote George R. Lyon, Waukegan attorney, was nominated as the Democratic candidate for circuit judge at the party convention held Friday at Woodstock.

Opposing Lyon at the special election on December 7 in Lake, McHenry, Boone and Winnebago counties, will be William L. Pierce of Belvidere, the Republican nominee. They will be contending for the vacancy caused by the death of Judge Edward Shurtliff of Marengo.

Lyon's name was the only one placed before the convention and he was therefore unanimously nominated by acclamation.

Only 34 years old, Lyon attended college at Dartmouth and studied law at Northwestern university. Following his admission to the bar he became associated with a Chicago law firm. He has been active in politics since 1932 and was for two years a Democratic precinct committeeman from Waukegan.

Chevrolet Sales Firm Leases Hardt Building

Elmer Rentner, manager of the R. & H. Chevrolet Sales, announces that the Dr. Hardt Building has been leased by his firm to provide additional floor space.

The Hardt building is the former home of the Chevrolet garage, being vacated in May 1936 when the concern moved into the building next door. It will be used primarily as a reconditioning shop for used cars.

With lease of the Hardt building, R. & H. Chevrolet Sales now occupies three large buildings. Including the basement of the newly rented structure, the company boasts a total floor space exceeding 16,500 square feet.

Merchants Supervise Safe-Crackers' Work

With the supervision and complete approval of a number of respected business men, a safe in Harvard was "cracked" in broad daylight last week. This unusual state of affairs was brought about by failure of the door of the Chamber of Commerce safe to respond to the customary dialings.

When Miss Catherine King, office secretary, was unable to unlock the door a number of the organization's members volunteered their services but their efforts were likewise futile.

Finally the safe was opened with the aid of George Adams, who formerly worked for a safe manufacturing concern.

Socialization of America

Actually Proposed

A bill recently introduced in Congress would go farther than any measure yet proposed to bring about the eventual socialization of the electric industry.

The bill would create seven new "TVA'S." Window dressing is provided in generalities concerning the need for flood control, development of navigation, and the preservation of natural resources. But the measure, in the words of News-Week, goes "directly to the heart of the program—the generation and distribution of electric power." It is stipulated that all Federal dams hereafter constructed shall be equipped for power generation.

The regions where authorities with almost czar-like powers would be established include the Columbia Valley, the Pacific Southwest, the Missouri Valley, the Arkansas Valley, the Great Lakes-Ohio Valley, the Atlantic Seaboard and the Mississippi Valley. When the existing Tennessee Valley Authority is added to these, it becomes obvious that the objective of the bill is a gigantic public-subsidized, tax-free, super-power system blanketing the country—controlled by politicians, and paid for by the taxpayers.

The measure goes to unbelievable lengths to destroy private competition. Each of the new agencies would have complete autonomy. They would be immune to state regulatory commissions, and it is specifically provided that they have the authority to establish rates without regard to the Federal Power Commission's standards for private utilities.

More incredible yet, the measure seeks to make these agencies practically immune from legal action by private utilities whose business they might confiscate at the expense of investors and workers. A clause in the bill provides that no Federal district court may issue an injunction against a governmental power agency unless the plaintiff posts bond to cover all possible losses resulting from litigation. In some cases these potential losses might total untold millions of dollars—and it would be obviously impossible to post bond for that amount, in order to have one's day in court.

It is difficult to believe that a measure so obviously destructive of personal and property rights would be drawn and seriously proposed in a democratic country. It is still worse to record that observers give it a fair chance to pass, unless the public awakens to its threat to our institutions. In the words of Philip H. Gadsden, "The bill will cripple if not destroy the electric light and power industry. For what purpose? To make a definite start in the socialization of American industry."

Destruction of private enterprise by such insidious legislation pales into insignificance in comparison to the fact that it heads our country toward fascism, communism, or some other alien "ism" under which government and officialism become the masters, instead of the servants of the people.

The Gentleman with the Scythe

Millions of thrifty Americans are providing for old age through life insurance. But how many of these millions will live to enjoy the fruits of their frugality?

Cold statistics would undoubtedly give a rather chilling answer. Yet, behind the statistics lie almost unbelievable tales of personal neglect by individuals who scrupu-

lously ignored the warning twinges of failing health. Over 70,000 persons died of tuberculosis in the United States last year... Most of those deaths could have been avoided, if the victim had but "played ball" with nature and the medical profession. The prick of a needle (Tuberculin Test), the snap of an X-ray camera, both of which would have required only a few seconds of time, and the gentleman with the scythe would have been sent on his way—alone.

Life insurance—and good health—are vital to the peace of mind of every breadwinner. Don't allow yourself to be "caught short" on either.

* * * * *

John Brown's Pay Check

According to an article by Frank R. Kent, current slackening of government borrowing is a deceiving phenomenon. Instead of borrowing directly from the banks or the people through the issuance of bonds, the government has now adopted a policy of spending the funds supposedly placed in trust with the government, by the people, under the Social Security act. In other words, the money which is taken out of John Brown's weekly pay check, and which the government has promised to set aside to care for him in old age or when he is unemployed, is promptly being dumped into the public treasury for general expenses!

The public treasury has simply become a vast and seemingly bottomless grab-bag. Politicians seeking to perpetuate themselves in office gleefully ply the treasury for money, and more money—money that is spent on everything from out-houses to cash registers. For the first 44 days of the current fiscal year the government spent \$954,805,183.94; its receipts were \$675,375,562.55; deficit, \$279,429,621.39.

What will become of John Brown's hard earned savings if such a policy is continued for long? What do you think?

* * * * *

"Unless You Help Yourself"

Addressing a group of farmers at the recent New York state fair, State Senator George Rogers said, "Unless you help yourself, no one can do anything for you."

No advice could be simpler, sounder or wiser. The farmer who looks to some outside agency such as government to bring America prosperity and solve all his problems, is doomed to disappointment—and he should be. Fortunately for agriculture, this type of farmer is in the minority. During the last few decades farmers have done a great deal to help themselves through cooperative marketing associations. It speaks well for the farmers' foresight and intelligence that during the depression the established cooperatives registered great advance in both their membership and their influence.

Yes, farmers are helping themselves and they are gradually achieving the success they deserve.

* * * * *

Threatening the Court

News dispatches of October 4 commenting on the reconvening of the Supreme Court, said: "As the Court meets, it is the growing conviction in Washington that the . . . attempt to enlarge the Court will be held in abeyance until the first judgments of the new term indicate the trend of its constitutional interpretations."

In other words, if the Court bows to dictation, it will be unmolested; if it declares congressional acts unconstitutional, it will be disciplined.

Many patriotic citizens of the United States never dreamed they would live to see the day when political factions would openly seek to sway the opinions of our highest tribunal by propaganda, insinuations and actual threats.

It's hard to decide whether it's worse to listen to someone complain about his misfortunes or someone brag about his good judgment.

Lake Villa School Notes

The report cards were mailed home last Friday and it seemed as though most of the pupils were glad to go to the postoffice in the evening for the mail when otherwise they might prefer to play ball in some vacant lot.

We are having movies on Tuesday afternoon of this week. The theme of the pictures has to do with the interdependence of peoples.

A few of the children in the upper grade room gave book reports last week to the enjoyment of the others.

Last week while Mr. Dixon was in Springfield he visited Lincoln's tomb and we all enjoyed listening to him tell us about it.

Mrs. McClure taught us on last Thursday and we enjoyed very much.

Lenore Groebli was absent last Thursday as she had to go to Chicago with her folks.

Marjorie McLaren is going to tap dance at the "Times" Theatre sometime in the near future and we all wish her luck.

The intermediate room has a set of Scottie flower pots and we have put flowers in each one. We also have a large flower pot which Mr. Brickman fixed up for us and in which we have placed some little plants.

Ralph Nader was absent three days school because of a cold for a part last week and we are all glad to see him back at school this week.

Pat Sullivan has been absent from school because of a cold for a part of this week.

The primary room is spending some time of late learning about Halloween and drawing pictures of Halloween characters.

Kathleen Gindich was absent for a half day on Monday.

The teachers and students of the Lake Villa school were all very sorry to learn of the death of Mrs. John Nader. She was a friend to all of us. In appreciation for that friendship we dismissed school on Tuesday from 10:45 to 1:00 so that those who wished could attend the funeral services held for Mrs. Nader at Antioch.

One of the most extensive real estate transactions recorded in Illinois took place in 1819, when the Kickapoo Indians, by treaty with U. S. Commissioners at Edwardsville, sold ten million acres of land lying between the Illinois and Kaskaskia Rivers.

Illinois was a dependency of Canada up to 1711, although the actual government was in the hands of French missionaries.

It's hard to decide whether it's worse to listen to someone complain about his misfortunes or someone brag about his good judgment.

ADVENTURERS' CLUB

HEADLINES FROM THE LIVES
OF PEOPLE LIKE YOURSELF!

"The Vapor of Death"

HELLO EVERYBODY:

Philip J. Cavanagh of New York City is today's Distinguished Adventurer, and Phil says that adventuring taught him something that he had never even thought of before. "Life," he says, "is always hanging on a thread."

Well, sir, when you come to think of it, that statement is just as true as it can be. You never know when you're going to step off the curb right into the path of a fast-moving automobile, and you never know when you're going to step out of the precincts of your humdrum, everyday life into the territory presided over by an ornery old gal named Old Lady Adventure. You don't think about it all the time—but it's there just the same.

But life hanging on a thread has no terrors for Phil. He remembers the time when Death hung in the air—without any thread or anything else to keep it from coming down on himself and the crew of swell fellows he worked with. That was on the twenty-third of December, 1908, when Phil, a foreman of pipe layers for the United Gas Improvement company, was in Bay Shore, N. Y., helping to install additional plant equipment in the local gas works.

There were five other men in his crew and their job was almost completed. The only thing left to be done was to break open the main gas line and cut in the conduits that they had laid during the past weeks. Before the job started Phil made an inspection of all the valves to see that they were properly closed and that no gas was going through the main conduit where his men were getting ready to "open up."

He Was Sure the Valves Were All Closed.

The valves were all shut tight. Phil would have been ready to swear to that. He gave the signal to his men to go to work, and then he went out in the plant's yard to see to the hot lead that they'd be using to close up with. As he went back to the sub-cellars where the main line was located he smelled gas coming up from below. That wasn't unusual. There was always some smell of gas around a newly opened line. But at the same time Phil noticed that the cellar was ominously quiet. Something had gone wrong!

In two seconds, Phil was through that trap door, and in another two seconds he was down in the sub-cellars. His fears were confirmed. On the ground around the newly made opening lay his crew, draped in all sorts of positions—and out cold.

Somehow or other Phil got those men out of there. The plant engineer helped him, and so did a couple of men who were passing by the

He Closed the Valve and Then Passed Out.

plant. They dragged them out onto the snow-covered ground and there Phil left them in the care of the engineer. He would have liked to stay out there in the fresh, clean air himself, but for him the adventure was just beginning. Somewhere in the plant, gas was still escaping. He had to find the leak before it welled up out of the sub-cellars and got into the rest of the plant.

One Spark and All Would Be Over.

Inside the plant Phil headed for that row of valves again. The trouble must be there. It couldn't be anywhere else. "I tried each one of those valves," he says, "but they were all turned as far as they would go. In desperation I tried them again and again. I believed I tried them all at least a hundred times, and as far as I could see each one of them was closed tight."

"Yet, the gas was pouring out. Pouring out so fast that I could see the gauge of the storage tank dropping lower and lower. I prayed fervently that the firemen who were attending to the two boilers would not have occasion to open the fire doors. For by this time the gas was up in the main part of the plant, and if one spark of flame got to it we would all be blown to atoms."

And in the meantime, Phil was swallowing a lot of gas. He was groggy, and getting groggier with every minute as he moved from one valve to another trying to find which one was letting loose the flow that was poisoning the air he breathed.

He could have saved himself by leaving his job and getting out in the air—but no such thought ever entered his head. Other lives were in danger, and any minute now the gas might get into the boilers and let loose a terrible blast of flame. He stuck to his post, still trying one valve after the other, until finally he dropped to the floor.

... pounds per head by July 20. As men had to be removed on account of lack of forage. Around the 18 acre plot, having sense of land each, weighed slightly as it did Sept. 25 when turned. The Brain's Vast Switchboard

The main divisions of the brain are the cerebrum, considered the thinking part; the cerebellum, lying at the back base of the brain, and the medulla oblongata. Anatomists break down subdivisions of the brain into units of extreme complexity. The layman usually is interested in the principal kinds of substance out of which the brain is made: gray matter and white in both cerebrum and cerebellum. Gray matter is useless in running such important organs as the heart, lungs, diaphragm; the thinking part of the brain can not control digestion, manufacture blood-cells or operate the intestines. Dr. Charles Macie Campbell of the American Psychiatric Association, in *Literary Digest*, declares that various parts of the body really are separate brains and participate in the act of thinking, the brain being a vast switchboard.

Ohio Once Had Many Snakes

Snakes once were so numerous in many sections of early Ohio that the settlers would organize snake hunts. Armed with clubs, axes and guns, the farmers would comb a section of the forest from morning to night, leaving hundreds of poisonous serpents dead in their wake.

World's Largest Glaciers

A roll call of glacial giants would include the names of Pamir, in the Himalayas, possibly 100 miles long; Hubbard, in Alaska, 90 miles long and in places 10 miles wide, and the ice cap of Svalbard, Spitzbergen. Glaciers flourish virtually on the equator—wherever peaks are high enough. The highest point in Africa—19,710 foot Mount Kilimanjaro, in Tanganyika—is girded with no fewer than ten such phenomena, even though it is volcanic. South American glaciers are frequently tucked into the pockets of quiet volcanic peaks in the Andes, and at Cerro Alto, in Ecuador, one has taken possession of the second hand crater. The method of growth is more spectacular than the mighty oaks-from-little-acorns contrast. For the huge rivers are merely overgrown colonies of snowflakes, which have become compact, granular ice.

Negroes in Yugoslavia

Negroes are known to have lived in various parts of Yugoslavia ever since the Turkish occupation of the Balkans. They were usually brought, both men and women, as slaves by Turkish officers and high dignitaries. Most of the male negroes were employed as eunuchs.

News of ANTIOTH and Vicinity

MISS ELEANOR CHELSTROM BECOMES BRIDE OF JOHN RUNYARD, JR.

The marriage of Miss Eleanor Chelstrom and John Robert Runyard, Jr., was performed Saturday at the Elm Methodist church in Chicago.

The bride, attired in white satin with lace train and veil and carrying white roses, was given in marriage by her father, Gustaf Chelstrom.

Miss Eunice Holstrom was maid of honor and Miss Jean Lacheur, bridesmaid. Clarence Kufolk and Morris Brown attended the groom.

The church was attractively decorated with ferns and a floral cross of roses.

On Sunday afternoon a reception was held at the home of Mr. and Mrs. Robert Runyard, Sr., at their home in Antioch in honor of the newly wedded couple.

The bride and groom left late Sunday evening for a honeymoon trip through the West.

MRS. GEORGE WURSTER HONORED WITH FAREWELL

Mrs. George Wurster, who soon sailing to Germany to attend the golden wedding anniversary of her parents, was honored with a farewell party at Frank Wolf's Tavern Saturday evening.

A number of Mr. and Mrs. Wurster's friends were present, including: Mrs. Jack Larson and her sisters, Adeline and Virginia; Mr. and Mrs. Richard Fiegel; Mr. Frank Malone and Mr. and Mrs. Charvat of Chicago.

Mr. and Mrs. John Morley and Mr. and Mrs. Reynolds of Antioch; Mrs. Mann and Mrs. Otto Leutdke of Loon Lake and Mrs. John L. Fenn and her daughter, Loretta. Mrs. Frank Wolf was unable to attend the event, but all the other members of the Wolf family were present.

* * *

FRIENDS GIVE SHOWER FOR MRS. WM. DUNFORTH

Forty friends of Mrs. William Dunforth surprised her with a stork shower Tuesday afternoon at the home of her sister, Mrs. Frank Walsh at Grass Lake. Mrs. Dunforth received over 100 gifts from her friends. Buncos was the diversion of the afternoon with prizes going to Mrs. V. Janques, Mrs. E. Nickelbein, Mrs. F. Wohlfel, Mrs. J. Meyer, Mrs. C. Holmes, Sr., Mrs. C. Herman, Miss H. Zyrk, Mrs. C. Holmes, Jr., Mrs. C. Davidson, Mrs. B. Gibling, Mrs. C. McCorkle, Mrs. D. Walsh, Mrs. P. Maas, Mrs. C. Rosenstock, and Mrs. C. Haling.

* * *

HUFFMAN-CRITTENDON WEDDING CEREMONY PERFORMED AT CROWN POINT

In a ceremony performed Saturday morning at Crown Point, Ind., Mrs. Lena Crittenden of Pikeville became the bride of William Huffman of Mather, Wis.

The bride and groom were accompanied by the former's son and daughter, Clifford Crittenden of Waukegan and Mrs. Edmund Wise of Bristol, who acted as best man and matron of honor. Fred Paasch, brother of the bride, was also in the wedding party.

Following a reception at the home of the bride's mother, Mrs. Amelia Paasch, in Pikeville, Mr. and Mrs. Huffman left for Mather where they will reside in a new home recently completed by Mr. Huffman.

Mr. Huffman has visited frequently in Antioch and has many friends and acquaintances in the community.

CHRISTIAN SCIENCE CHURCHES

"Doctrine of Atonement" was the subject of the Lesson-Sermon in all Churches of Christ. Scientist, on Sunday, October 17.

The Golden Text was, "God is faithful, by whom ye were called unto the fellowship of his Son Jesus Christ our Lord" (1 Cor. 1:9).

Among the citations which comprised the Lesson-Sermon were the following from the Bible: "In this was manifested the love of God toward us, because that God sent his only begotten Son into the world, that we might live through him. And we have seen and do testify that the Father sent the Son to be the Saviour of the world" (1 John 4:9, 14).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Willingness to become as a little child and to leave the old for the new, renders thought receptive of the advanced idea. Gladness to leave the false landmarks and joy to see them disappear,—this disposition helps to precipitate the ultimate harmony. The purification of sense and self is a proof of progress" (p. 323-4).

Mr. and Mrs. S. B. Nelson and son, Harry, left today for Gorham, Ill., where they will visit Mrs. Nelson's father and other relatives.

Mr. and Mrs. Nason Sibley are in Chicago today.

Personals

Merrill Cunningham and John Effinger and Art Geden of Lake Villa, returned Saturday from a few days fishing trip to Pimble, Wis. "Missouri" says the fish were not biting.

Mr. and Mrs. Lloyd Murrie returned yesterday after a ten-day vacation trip to the Virginias, New York and Canada.

Mr. and Mrs. Charles Mason, of Kellogg, Iowa, were called to Waukegan Sunday by the serious illness of their daughter, Doris, Antioch grade school teacher who has been in Victory Memorial hospital for the past two weeks. Her condition today was reported to be somewhat improved.

Mr. and Mrs. Fred J. Behrens of Lake Villa township were Antioch visitors Tuesday. The Behrens have resided on their farm on Grand Avenue near Wedges Corners for 47 years.

Mr. and Mrs. Ed Vos, Mr. and Mrs. Bud Holtz and Dr. and Mrs. D. N. Deering attended charter night of the Lions Club in Milwaukee Monday night.

Mary Lou Sibley, freshman in Rockford college, was a guest in the home of her parents, Mr. and Mrs. N. E. Sibley, from Friday until Monday.

Mrs. Emily Van Patten and son, Arden, returned Saturday after a month's visit with the former's sister, Mrs. Joe Verlinder and family in Cleveland, Ohio.

Mr. and Mrs. B. R. Burke, Misses Deedie and Mary Tiffany and Homer Tiffany were guests at the home of Mr. and Mrs. A. W. Dubs in Waukegan Sunday.

Miss Ruth Pierstorff is ill at the home of her parents near Millburn.

Mr. and Mrs. R. C. Cawthorne of Waukegan were callers at the home of Mr. and Mrs. B. R. Burke Sunday.

Miss Lillian Overton is visiting relatives in Minneapolis this week.

Cameron Micheli, freshman at Purdue university at LaFayette, Indiana, was a week-end guest here at the home of his mother, Mrs. Eleanor Micheli.

Mrs. Andrew Lynch returned Tuesday from Fond du Lac, Wis., where she attended the funeral of her nephew, Harold Lynch. Ed Lynch of Chicago was one of the pall-bearers at his cousin's funeral.

Miss Ruth Cunningham, who underwent an operation for appendicitis Friday in Waukegan, is reported to be improving rapidly.

Mr. and Mrs. John Rothuer and his mother, Mrs. Lillian Rotnour of Elgin were Sunday guests in the home of Mr. and Mrs. Virgil Felter.

Mrs. Mollie Somerville was called to Chicago Sunday by the illness of her son, Earl, who underwent an operation at the West Side hospital Monday. Reports today are that he is improving. He is employed in the state hospital at Kankakee.

Mrs. Myra Shultz suffered a cerebral hemorrhage Tuesday noon while at her home on North Main street. Her condition today is slightly improved but she is still seriously ill.

Don't be sure the baby likes you when he smiles at you. Maybe he just has a keen sense of humor.

Williams Family Returns From Trip Through East

Dr. and Mrs. R. D. Williams and their daughter, Betty Lu, accompanied by Mrs. Addie Williams, Dr. Williams' mother, returned this week from a trip through the East.

They report a very interesting vacation. Highlights were a visit to the Edison Institute Museum Village at Detroit, Mich., and views of Niagara Falls from the Canadian side. Fort Niagara on Lake Ontario, Chittenango Falls near North Manlius, N. Y., and the Finger Lakes region in eastern New York state.

Chittenango river flows across the farm of Mrs. Williams' grandfather, where the old Rector homestead stood until it was destroyed by fire four years ago.

Dr. Williams took up a shrub from his great-grandfather's farm and intends to plant it in the yard of his home in Antioch.

Only one member of the Rector family survives in the vicinity of the old homestead, according to Mrs. Williams. In talking with the postmaster of her native village she was told that George Rector, the famous restauranteur, is of the same family.

ST. IGNATIUS' GUILD TO SPONSOR CARD PARTY

The Guild society of St. Ignatius' church will sponsor a card party Wednesday afternoon, October 27, at 2 o'clock at the home of Mrs. M. M. Stillson on Spafford street. Admission is 35c.

ROYAL NEIGHBORS PLAN CARD PARTY

The Royal Neighbor lodge of Antioch has announced a card party to be given Tuesday night, October 26, at the Danish hall, Bridge, "500" and bunco will be played. The admission is 25 cents.

"WHO WOULDN'T BE CRAZY"

is a comedy that anyone would enjoy. Anyone would be crazy to miss it!

Setting: Good Samaritan Sanitarium.

Because it takes place in a sanitarium it does not mean that all the people are crazy in it. No, this is a rest sanitarium.

Evelyn is here because Edward, her boy friend, left her.

Edward is here to find Evelyn.

Lois is here because she gives a play annually for the patients.

Jack, in love with Lois, is here trying to get the attention of Lois.

Pendie is the maid of Lois.

Pluribus is the gate man.

Then there are doctors and nurses. It is very funny, but not silly. But I mustn't tell you any more about it; you'll just have to see it to appreciate it.

It's to be Thursday and Friday, October 28 and 29.

Bring plenty of handkerchiefs, you'll need them, you'll laugh so hard you'll cry. DON'T MISS IT! ! ! ! —Adv.

Open Deer Season Cut to 3 Days in Wisconsin

Wisconsin will have a three-day open season on deer this fall, opening on November 29. A five-day period was originally proposed by the conservation commission, but Governor LaFollette shortened the season when the commission's order was submitted for his approval.

A Sizeable "If"

If the man holding a government job would work as hard at that job as he did trying to get the job, the government would be more efficient.—Atchison Globe.

Illinois Supreme Court Admits 107 New Attorneys to State Bar

One hundred seven new attorneys were admitted to the practice of law by the Illinois Supreme Court on October 14. Governor Horner personally handed out licenses to the newly-admitted members of the bar, the first time in many years in which a governor presented the licenses.

Former Antioch Resident Opens Tavern at Villa Park on Friday

Fred Stahmer, formerly of Antioch, Friday night is opening a tavern in conjunction with the oil station which he operates at the corner of Route 54 and Grand Ave., Lake Villa. A fish fry will be held on the opening night. Mr. Stahmer expects to make the fish fry a weekly event, to be held each Friday.

THE ANTIOTH NEWS, ANTIOTH, ILLINOIS

PAGE FIVE

THE LEGIONNAIRE

Installation of 40 and 8 officers occurred Saturday night, October 16 at Bonnie Brook Country club in Waukegan. The installing officer was Chef de Chemin De Fer Passe, past national commander of the 40 and 8. Present from Antioch were Will Phillips, Garde de La Porte, and Dr. L. J. Zimmerman, Chef de Train.

Notables from all parts of the country are expected to gather in Antioch tonight to attend the meeting of the Antioch Post. Roger Miller will be chef for the fish fry, the feature of the evening.

One hundred fifty thousand Legionnaires marched in the parade at the national convention in New York, and over 2,000,000 watched it. The San Gabriel, Calif., drum and bugle corps won first in the greatest musical tournament ever staged in a national meet. Fifty-one organizations competed.

The past commanders club of Illinois will hold a boxing show at Medina club on October 29. The club has 1,500 members. Tickets are \$1.75 including dinner and show.

The commanders and adjutants conference will be held Nov. 27 in Bloomington, Ill.

Navy Day is Oct. 27. All citizens are asked to have their flags displayed from sunrise to sunset.

The national convention adopted a permanent peace program. This expression comes from men who know what war is like.

The membership drive is now under way and a record year is expected. Warren Edwards is chairman of the committee on membership.

AUXILIARY NOTES

A meeting of the executive board of the 10th district will be held Friday, October 29, at the home of Ethel Brown in Lake Bluff.

The Auxiliary membership drive is under way with Mrs. Otto Klass and Mrs. Lester Osmond as membership officers.

Special plans are being prepared for the observance of Armistice Day.

The annual benefit bridge party has been announced by the 40 and 8 to be held Wednesday, Nov. 3, in Waukegan. Proceeds will be turned over to the child welfare fund of the Jewish hospital in Denver, Colorado.

Pasturing Live Stock
On Plots of Woodland
Proves Unprofitable

(By Orville Winfield)

At the Indiana Experiment Station three plots of woodland were recently pastured by beef steers with unsatisfactory results. The three plots, six acres, 12 acres and 18 acres respectively, had three steers turned into each on May 11.

The steers having two acres each lost 25 pounds in weight by June 25 and had to be removed as all the forage was used up by that time.

The steers having four acres each lost 60 pounds per head by July 20 and then had to be removed on account of lack of forage.

Those in the 18 acre plot, having six acres of land each, weighed slightly less on Sept. 25 than when turned out on May 11, and had to be removed on that date due to lack of forage.

Woodlands are more profitable if they are managed from a forestry standpoint.

Clean out worthless underbrush, giving the good saplings a better chance to grow. Plant new seedlings. Keep out cattle and soon you will be receiving a sizeable income from lumber and fuel. In the hard maple regions large incomes may be made from the manufacture of maple syrup and sugar.

A pasture in rotation with other crops will prove more profitable in pasturing your livestock.

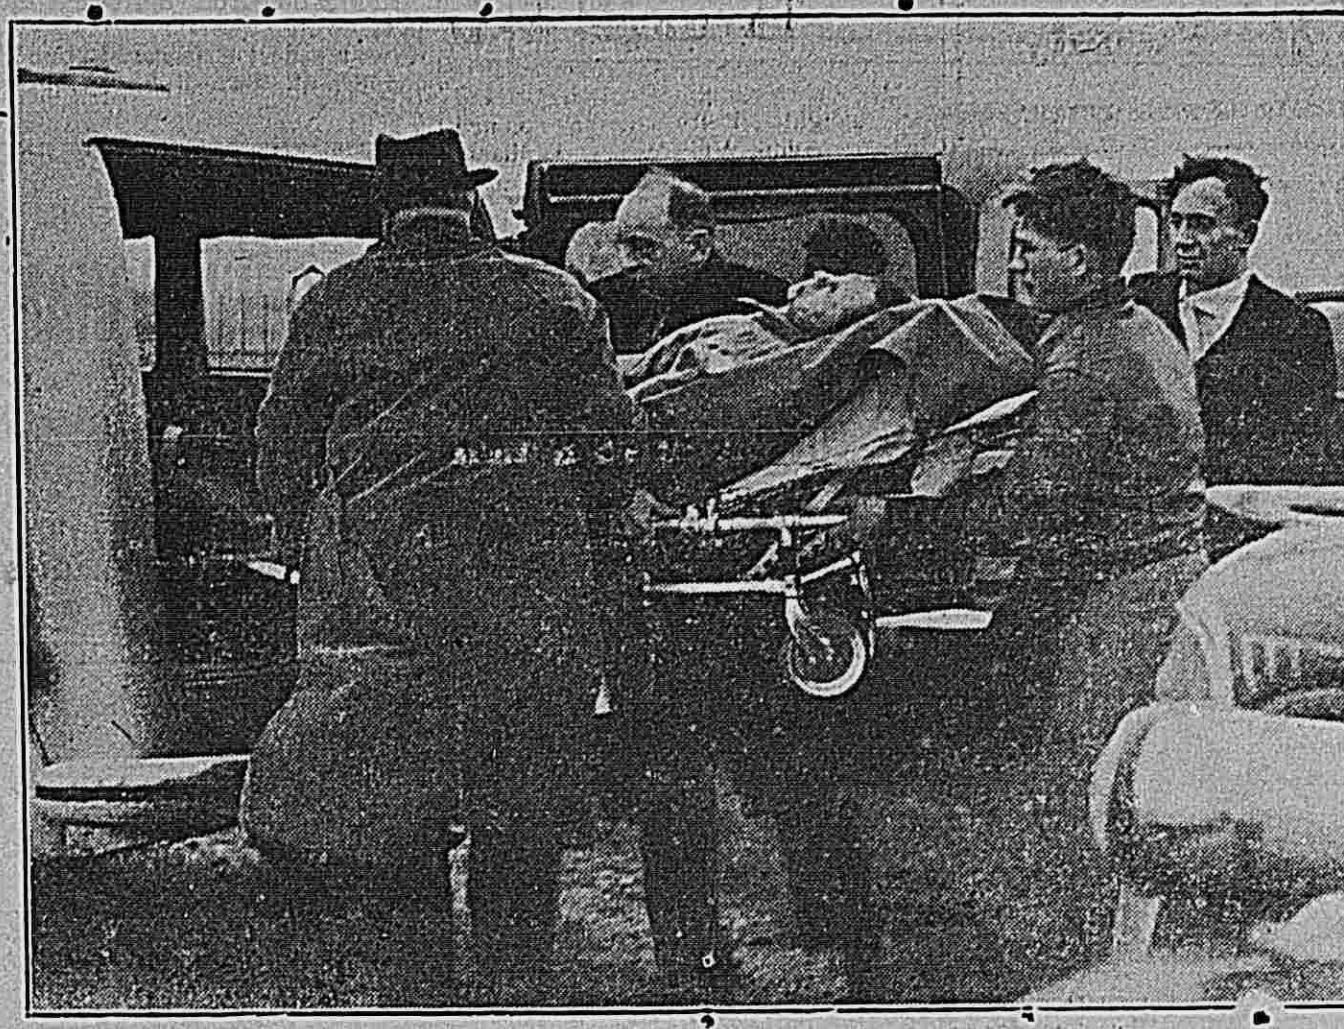

Magistrate Spends
Night Behind Bars

The tables were turned when Police Magistrate Frank A. Walters of Winthrop Harbor was confined for seven hours in the county jail last weekend on an assault and battery charge. He was released for hearing on Oct. 21 upon payment of \$200 bond.

His tenancy in the lockup was brought to a welcome end when Justice of the Peace Harry Hoyt considerably appeared at the jail office and accepted the bond.

Walters was lodged in a cell shortly before midnight on the complaint of Harvey Brewer of Winthrop Harbor who asserted his son, Reed Brewer, had been beaten by the magistrate after engaging in a schoolboy fight with the latter's son.

Antioch Man Hurt in Auto Crash

Orville Cunningham is shown above being placed in an ambulance after a smash-up near Zion Tuesday afternoon. He was taken to St. Therese hospital at Waukegan where he is still under medical care. He suffered a number of fractured ribs and lacerations. —Courtesy Waukegan News-Sun.

Rabbits Favorite Prey
of Illinois Sportsmen

Rabbits are the most popular game in Illinois according to the State Department of Conservation. There are more rabbits hunted than all other classes of game combined. Rabbits are numerous but unevenly distributed, being most plentiful in the southern zone and scarcest in the northeastern part of the State. The Department is planning to trap rabbits in southern areas, hold them at the Mt. Vernon State Game Farm, and turn them loose in northern areas after the close of the hunting season on December 31.

Welfare Institutions
House One Person in 153

One out of every 153 persons in Illinois is an inmate of one of the State's welfare institutions, according to the latest census.

The largest group of those being cared for by the State in the mental institutions, with the next most numerous group in penal institutions. Mental, penal and charitable groups of State wards all show an increase as compared to last year.

Bee Is Cause of
Five Broken Ribs

Jack Benny is not the only native son of Waukegan to whom the bee has proved a nemesis.... Chestert C. Ames of that city suffered a lacerated nose and five fractured ribs in Deland, Florida, last week when he tried to escape a bee which flew in the window of his car. Paying more attention to the bee than the road, Ames lost control of the car and crashed into a power-line pole.

Lights of New York
by L. L. STEVENSON

To speak of "forgotten memorials" seems ironical to say the least. Nevertheless, New York has many. Of 300 or more which have been engaging the attention of a group of WPA workers since May, 1934, there are two which have been so completely forgotten that no one seems to know anything about them. More than likely, they were unveiled with much ceremony, including speeches, which set forth in detail the accomplishments and virtues of those whom they commemorated. At first those who passed recognized the stone likenesses and understood what the inscriptions meant. But with the passing of years, likenesses grew dim in memory and inscriptions dim to the eye. Stone, erected to perpetuate memories, also deteriorated. The rest of the 300 have not been forgotten entirely. But they have been forgotten to the extent that they have been neglected so that they became unsightly. So for more than three years, 30 men, under the direction of Walter Beretta, young sculptor, in co-operation with the park department, have been endeavoring to restore them. . . .

New York's memorials face various perils. First come vandals, and New York harbors vandals in numbers. That the memorials have been erected by patriotic groups and by philanthropists means nothing at all to vandals. They fracture skulls of statesmen in stone just as readily as they break muskets of soldiers of the Revolution or noses of patriots. Then there is the atmosphere of the city. Acid and soot-laden, it can and does disintegrate stone. Hence, though the Beretta forces have been laboring for more than three years, their task is only about one-third completed. Beretta, however, declares that in the future, the work will proceed faster since the worst cases were tackled first. But the vandals and atmosphere are still with us. . . .

That airplane hostesses are less liable to marry than other young women of their age was the astonishing statement made to me by a young woman in that line of work who, for reasons she deems sufficient, doesn't want her name mentioned. Questioned as to why she thought personable, attractive and efficient girls of the air should take such an attitude toward matrimony, she replied it was because of their

But It's True - - - - - !

The United States government, in connection with an attempt to determine just how effective flies are in carrying disease, dyed many thousands of them a bright red, had agents looking for them for miles around. It is estimated that the fly which remains active in one room throughout the day actually covers as much as 300 miles of space in 24 hours.

Harvey, large for his age, ran away from home and enlisted in the Canadian army in 1914. When the United States entered the war he was transferred to the American forces. He recently received more than \$700 in pension money.

vocation. In the course of time, they become so accustomed to being constantly on the move that they grow disinclined to settle down in any one place and assume the responsibilities of keeping up a home. On the other hand, she admitted, they are better fitted than the average girl for a domestic career. Not only are they graduate nurses, but also they are trained to meet with all kinds of situations, including handling drunks! . . .

Possibly my informant is right. But evidence in rebuttal seems at hand. American Airlines had made no plans to organize a school for

stewardesses this summer. But because 10 of the 120 blue-clad feminine members of their airplane crews either had married or were about to marry, plans had to be changed and the school opened. There may be significance in the fact that the stewardesses who married didn't break entirely away from air transport. Three became the brides of pilots and four of other airplane company employees.

Airplanes make me think of streamlines and that causes me to recall the fact that New York now has the largest fleet of streamlined street flushers in the world. There

are 75 of them, each of which cost \$6,189. Built from plans made by the department of sanitation, they carry 2,500 gallons of water, which they squirt practically silently on dirty thoroughfares. They have been painted aluminum instead of olive drab so that they will be more visible between midnight and 8 a. m. when they are most in use. And the streamlining is merely for looks and not for speed.

Thunder Caused by Heat
Thunder is the violent expansion and contraction of air caused by the heat of lightning passing through it.

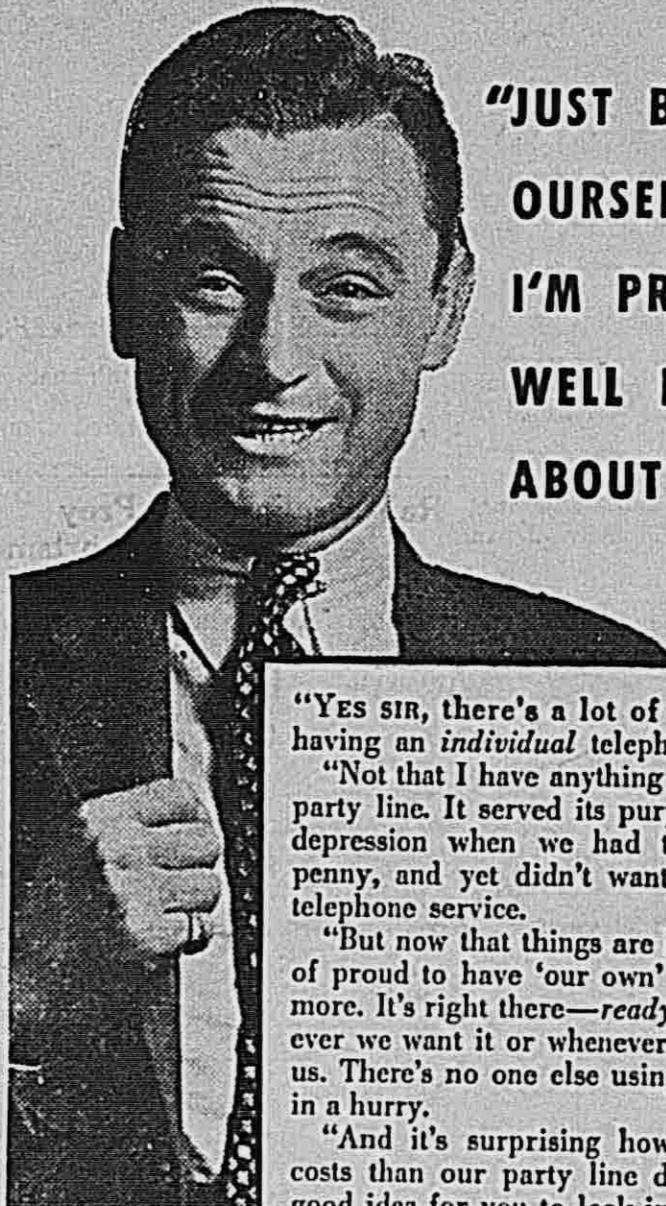

Great Lakes to Tidewater
Navigation from the Great Lakes to tidewater was established in 1825 when the first Erie canal boat, Seneca Chief, left Buffalo for New York.

AIR BASE FOR ARMY USE RISES IN WEST**Reservation at Sacramento Covers 1,200 Acres.**

Sacramento, Calif.—Work is being rushed here for the completion by January, 1939, of what will be one of the nation's most important military aviation centers. It will be a base for the repair and maintenance of all army flying fields, planes and materials west of the Rocky mountains.

The new Sacramento air depot will be located on a 1,200-acre tract seven miles northeast of the state capital. It will include an amazing array of huge steel and concrete buildings, housing plane shops, warehouses, aero shops, hangars, offices and many other structures. It will also have a military post, including a headquarters, building, barracks, hospital, quartermaster's facilities, guardhouse, fire stations and quarters for officers and "non-coms."

More than 200 men are working on the base now and this number will be increased to 1,000 when construction is in full swing, according to Major Arthur W. Parker, in charge of the work.

Three Concrete Runways.

For test flying there will be a large, completely equipped airfield with three concrete runways each 4,000 feet long and 150 feet wide. Leveling the field involves the movement of a million cubic yards of soil.

When finished and in public service the depot will provide employment for about 500 civilian mechanics and a good-sized staff of office workers. Its military force will consist of from 25 to 40 officers and 150 enlisted men.

The outstanding feature of this great base will be the building which will house the engineering shop and the repair dock. It will be 900 feet long by 800 feet wide, or approximately three city blocks long and two blocks wide, covering nearly 13 acres.

Although it will be only one story high, it will require 5,530 tons of structural steel. Its three main doorways will be 250 feet wide by 50 feet high. The doors will be opened and closed by powerful electric motors. Surmounting the vast structure will be a 90-foot flying control tower.

Within this 13-acre plant will be row on row of aeronautical machinery, including everything necessary for overhauling and repairing any type of plane.

Ten-Acre Supply Depot.

Adjoining the engineering shop will be the depot supply warehouse with nearly ten acres of floor space. It will be 850 feet long and 430 feet wide with a one-story height.

Most remarkable from the standpoint of construction, however, will be the two-story equipment repair building, in which plane instruments will be kept in tip-top shape. Its walls, extending 220 feet in one direction and 72 feet in the other, will be almost wholly made of glass blocks four inches thick and without windows.

An air-conditioning system will provide ventilation and regulate the temperature. The reason for this is that aero instruments are so delicate they can be properly regulated and tested only in rooms which are dustproof and where the atmosphere is controlled.

The main office building will be 300 feet long and 70 feet wide and three stories in height. Two additional structures will house the engineering and operating offices.

Indians Ate Prisoners, According to Reports

Niles, Mich.—Cannibalism isn't an institution peculiar to darkest Africa—it was practiced here in Michigan not much more than 100 years ago.

The Rev. Isaac McCoy, pastor at the pioneer Carey mission near here and a close friend of the Indians, left an account of a conversation with Pokagon, Pottawatomie chief, in which the Indian told him that the tribe of Sauks had eaten their prisoners.

As recently as 1825 there was evidence that an Osage prisoner was killed and eaten in the state—Indians being convinced the strength and courage of their enemy came to them by eating him.

Apparently, Pokagon in accusing the Sauks to Mr. McCoy, was using his accusations as a shield, as noted historians, including Schoolcraft, Parkman and Drake, declare that cannibalism was common, even among the Pottawatomies.

Stitches on Clothing Save Lost 8-Year-Old

Washington.—A chainstitch in time saved Catherine Freeman.

Back from visiting her grandmother in South Carolina, eight-year-old Catherine was supposed to be met by her mother at the station—but Mrs. Freeman was delayed.

So Catherine pointed to the big figures chainstitched into the front of her dress—"1001 A street, Washington, D. C."—and was delivered safely.

PACIFIC DEFENSE LINES LENGTHENED**Navy to Patrol Coast With Fleet of Giant Bombers.**

San Diego, Calif.—The navy is lengthening and strengthening its "first line of defense" in the Pacific.

Before the end of 1938 huge patrol bombing planes, most powerful air fighters of their type in the world, will be droning along daily over some part of an area embracing 5,000,000 square miles. The planes will be stationed so as to be instantly available should trouble rise in the Pacific.

It is the plan of the navy to have 140 of these most modern fighting craft on duty in the great semicircle extending from the Aleutian islands, through Guam, Wake and Midway to the Hawaiian group and then bending eastward to Panama before another twelve months passes.

Planes designated for this duty are the PB2s, with a cruising range of nearly 4,000 miles, a top speed of in excess of 150 miles an hour with a full load. The full load consists of at least 10,000 pounds of gasoline, a crew of six or seven men, machine guns, munitions and more than a ton of bombs.

In order to have these fighters at strategic points, the navy, during the next few months, will sponsor at least nine long-distance mass flights, similar to the three carried out already this year as "routine transfers."

At all, the navy is building sixteen squadrons of the patrol bombers, and fourteen will be stationed in the semicircular "first line of defense area." Of those fourteen squadrons, of twelve planes each, to be stationed in the Pacific area, five will be in Hawaii, three in Panama, two in Seattle and four in San Diego.

Plan to Restore Last Home of Daniel Boone

St. Charles, Mo.—The house in which Daniel Boone died is to be restored to its original appearance.

Colonel Francis Marion Curlee, of St. Louis, a direct descendant of Boone's brother, John, is the present owner. The stone house, which changed hands many times, was bought in 1904 by a farmer, Henry Bollman. Bollman sold it to Colonel Curlee in 1925.

Boone's youngest son, Major Nathan Boone, built the house in 1810, taking almost two years to complete the job because the plaster had to be buried during the winter to "ripen." All cutting and finishing was done with an adze. The walls are two-and-a-half feet thick. Their extraordinary thickness makes the house warm in winter and cool in summer.

Most of the furnishing installed by Colonel Curlee are reproductions, some originals, of the pioneer's period. The dining room in the basement, is one of the most interesting rooms in the house. The sunlight enters from the south on a room with a ceiling of huge timbers, native brick floor and sparse furnishings—authentic Windsor chairs, table and an old-fashioned sideboard. Over the fireplace hangs a Kentucky long rifle. The five-foot-long rifle has a sharply curved, short stock fashioned to be fired from the elbow, not the shoulder.

Besides the living room, which extends the breadth of the house along the east side, there are two other chambers on the first floor. Three rooms on the second floor are divided by a hall which has been converted into a library with some 2,000 books. There are many volumes on Boone and a quaint collection of old books on the code of dueling.

Explaining Name Tires Townfolk in Michigan

Paw Paw, Mich.—Paw Paw filling station attendants are weary of explaining how this town got its name and particularly that the name has nothing at all to do with fathers.

"Southerners never ask about it," one attendant explained. "They know the paw paw is a particularly sweet fruit, something on the order of a small banana. But many northerners and city people never heard of paw paws. The town was actually named by the Indians as it was the Indians who named the Paw Paw river because of the number of paw paw trees which dotted its banks. Then the town was named after the river. In 1867, the name of the township was changed from Lafayette to Paw Paw.

"Simple, isn't it. But it gets tiresome telling that story 20 times a day."

Try Out Shelter Belts on Farms in Minnesota

St. Paul, Minn.—Completion of 138 demonstration windbreaks on rural credit department-owned farms in the arid western sector of Minnesota has been announced by Grover Conzel, state forester.

Each demonstration windbreak consists of an outer belt to catch snow into which go 500 Siberian pea trees, and an inner break of 300 American elms, 300 green ash and 200 spruce. Between the two belts is a lane where drifting snow is held.

Wind erosion control planting announced by Conzel included 60,000 trees in severely damaged areas of three counties.

THE ANTIQUE NEWS, ANTIQUE, ILLINOIS

TREVOR

Frank Gerard, Kenosha, was in Trevor on business Tuesday.

Alfred Dahl is giving his house and store a new coat of paint.

Mrs. William Yopp and son, Mundelein, Ill., spent Tuesday with the home folks.

Mr. and Mrs. Willis Sheen and Miss Mary Sheen were callers Tuesday at the George Higgins home in Wilmot.

The Trevor school soft ball team defeated the Fox River school at the Silver Lake diamond Tuesday evening, 5 to 4.

The Willing Workers were entertained at the Mrs. Nellie Runyard home on Thursday afternoon. In two weeks they will meet at Social Center hall and tie the comfort.

Mr. and Mrs. William Evans, Mrs. Earl Elfers, Mrs. Nellie Runyard and Mrs. Luana Patrick attended the chicken dinner at the dining hall of the Methodist Church, Wilmot, sponsored by the Ladies' Aid of the church.

Robert Patrick, Salem, visited their grandmother, Mrs. Luana Patrick, on Saturday.

Mr. and Mrs. Elmer Fleming called at their grandparents, Mr. and Mrs. William Elfers at Richmond Friday evening. Mr. Elfers has been ill.

Mrs. Ann Kimmell accompanied Pete Schumacher to Chicago Sunday where she called on her nephew, Will Van Osdel, who is ill.

Mr. and Mrs. Elmer Fleming and children and Mr. and Mrs. Elmer Elfers visited Sunday with Mr. and Mrs. William Pohlman at Palatine, Illinois.

Mr. and Mrs. Kermit Schreck and Mr. and Mrs. Eugene Frank, Paducah, Kentucky, returned home Thursday after spending a two weeks vacation.

Mr. and Mrs. Robert Lavenduski are rejoicing over the birth of a baby girl born Saturday morning.

Mrs. Frank Lasco spent Friday night and Saturday with her daughter, Mrs. Charley Oetting, and sister, Mrs. Joseph Smith. Saturday evening, Mrs. Lasco and Mrs. Oetting motored to Burlington where she

spent Sunday with her daughter, Mrs. Dorothy Murphy.

Sunday callers at the A. J. Baethke home were his sisters and their families, Mr. and Mrs. Philip Koroll and son, Melvin, Bellewood, Illinois, and Mr. and Mrs. Edward Neiman, Hillside, Illinois, Mr. and Mrs. William Bennett and the latter's sister, Miss Linda Buschman, Antioch.

Mr. and Mrs. Allen Copper and son, Chicago, and Mr. and Mrs. William Smith and sons, Dousman, Wisconsin, spent Sunday with their mother, Mrs. Mattie Copper, and sister, Gertrude Copper.

Sunday visitors at the Charley Oetting home were Adeline Oetting, Oak Park; Florence Gripe, Evanston; Price George, Sparta, Wisconsin, and Dr. B. Meyer, Chicago.

Trevor Trims Hillcrest 20 to 15 To Win County Championship

Trevor school forged ahead in a spectacular game played Saturday afternoon at the Paris Recreation Center to defeat Hillcrest 20 to 15, and cop the county baseball championship, its second title of the year. Losing two of the star players through graduation, after winning the first pennant last spring, not much hope was held out for a chance to advance for this fall.

With true fighting spirit, however, the squad took all comers into camp in this order: The combined forces of Twin Oaks and Miner by a score of 15 to 3; Brass Ball, to the tune of 9 to 0; Fox River and High Street in

a thriller which ended 5 to 4. The latter victory gave the team the championship of western Kenosha county.

The game Saturday against Hillcrest, the pick of the eastern part of the county (in school of less than 30 students enrolled) was the final game in the tournament. The first inning was disheartening for Trevor as the opposition chalked up a 9 to 1 lead.

However, behind the fine pitching of Frankie Derler and the hard hitting of the entire squad the westerners soon drew ahead to win decisively, 20 to 15.

Don't tell your favorite story too often.

Stitches on Clothing Save Lost 8-Year-Old

Washington.—A chainstitch in time saved Catherine Freeman.

Back from visiting her grandmother in South Carolina, eight-year-old Catherine was supposed to be met by her mother at the station—but Mrs. Freeman was delayed.

So Catherine pointed to the big figures chainstitched into the front of her dress—"1001 A street, Washington, D. C."—and was delivered safely.

LAKE VILLA

Mr. and Mrs. Al Almquist and two sons of Superior, Wis., came on Saturday a week ago for a visit with Mrs. Almquist's parents, Mr. and Mrs. Frank Nader. Mr. Almquist returned to his home on the following day, but his wife and children remained until the following week-end.

Mrs. Anna Kelly of Antioch spent Wednesday of last week with Mrs. Charles Kelly here.

Mr. and Mrs. Roberts of Freeport, Illinois, were guests of Mr. and Mrs. Carl Seeger on Sunday a week ago.

Mr. and Mrs. David Weber of Wrentham, Massachusetts spent a few days last week with Mrs. Fred Weber, Mr. and Mrs. William Weber and Mr. and Mrs. Richard Whitaker, who are relatives.

P. R. Avery was a Chicago business visitor on Friday.

The Ladies Air Society which had planned to meet Wednesday afternoon this week with Mrs. Frank Nader at

her home, postponed the meeting until Wednesday of next week.

Mr. and Mrs. Arthur Thayer and friends, Mr. and Mrs. Van Patten of Antioch, were Waukegan visitors Sunday evening.

Mr. and Mrs. Sylvester Gerber are keeping house for Henry Peterson. They formerly lived in Burlington, Wisconsin.

Mr. and Mrs. Anderson and daughters of Chicago spent Sunday with Mrs. Anderson's parents, Mr. and Mrs. James Leonard.

E. K. Hart spent Sunday with his mother and sister in Chicago.

The P. T. A. held its regular meeting at the school-house Monday evening and following the business session, presented a splendid program consisting of a group of numbers by a saxophone quartet from Grant High school and a group of readings by Mrs. Amstutz of Waukegan which were splendid and much enjoyed.

Mr. and Mrs. Carl Seeger of this place and Mr. and Mrs. Ed Slater of Grayslake drove to Rockford on Sun-

day to visit Mrs. Seeger's sister and family there.

Mr. and Mrs. Willard Keefe and son, and Mr. and Mrs. John Shonfeld and son of Waukegan were guests of the C. B. Hamlin family on Sunday.

Dr. Stephenson, Dist. Supt. of M. E. churches of this district, will be present at the morning church service next Sunday and you are very welcome. The first quarterly conference of the church will be held following the service.

John Effinger left last Thursday with a party of friends to fish in northern Wisconsin, but fish were not biting well and Mr. Effinger and his friends returned home Saturday instead of Sunday.

Miss Alice Riordan, who is a student in Chicago college, spent Saturday and Sunday here, and she visited friends in Antioch besides going to Waukegan with her mother on a shopping expedition Saturday.

The local fire department was called to the east side of Deep Lake early Friday morning when Dr. Larsen's cottage caught fire from hot ashes which were stored in a wooden container and which caught fire in the basement. The caretaker was awakened by smoke and called the firemen who were able to put it out before serious damage was done.

Our village was saddened Sunday morning when news of the very sudden passing of Mrs. John Nader became known. She had been in her usual health which had not been so good for the past two years, but the strain of moving early this month was too much for her. She had apparently been up during the early morning hours and before six o'clock Mr. Nader discovered her body lying on the floor, and she had died some time before. Besides her husband she leaves one step-daughter, Mrs. Fred Hamlin, besides a host of friends and relatives. Services were held from the Strang funeral home in Antioch Tuesday morning, Rev. L. B. Allen officiating, and a service was also held in Chicago at the cemetery chapel, in charge of the of the lodge which she had been a member for many years.

Miss Valeria Slazes and Elmer Sheehan were united in marriage at St. Peter's church in Antioch at 9 o'clock Tuesday morning and many from this place attended the ceremony. After a short wedding trip the young couple will go to housekeeping in Waukegan where the groom is employed. They have many friends here who wish them happiness.

Do it now, delays are dangerous. We pass this way but once.
